IETF Hackathon:
<IETF Mobile App>

IETF 104
23-24 March, 2019
Prague

Hackathon Plan

- <Feature Parity between IETF Apps>

  - <Making the iphone/android applications more similar>
- <A unified approach: Flutter/React>

What got done

- <Initial UI design work in Flutter>

  - <https://github.com/theArtechnology/ietf-app>

  - Work accomplished by a remote participant: brunobernard@cyberstorm.mu

    - NOTE: All work here done by Bernard and his team in Mauritius, go remote participation!!

What we learned

- <Having one person in a band makes for sad music>
- <Having a loosely coupled team is workable!>

Wrap Up
